Slow Opportunities for Investing Locally

LOAN APPLICATION

Thank you for reaching out to SOIL-Boulder: Slow Opportunities for Investing Locally. We are a grassroots, member-led organization that provides 0% loans to local and organic farms and food enterprises.

Because we are based in Boulder, local for us means the general area of the Front Range between Denver and Fort Collins. We hope that in the future there will be SOIL groups in various locations around the state, with each group prioritizing food enterprises that are closest to them.

We operate consistent with the spirit of community supported agriculture, sharing risk and seeking to nurture direct, personal relationships. We are part of the Slow Money movement.

Please familiarize yourself with www.soilboulder.org.

We do not have formal guidelines with regard to the size of our loans. Please keep in mind that we are a newly formed nonprofit, with starting capital totaling \$235,000 provided by 75 individuals. It is our intention to gradually grow this pool over time. The preferred size of our loans will be a bit of a moving target. No loan is too small; however, some will certainly be too big. Loan term will be arranged on a case-by-case basis.

This loan application will be reviewed by the Loan Committee of SOIL-Boulder, with help, if needed, from other members of the SOIL-Boulder Executive Committee. If, after this review, it is determined that you are an appropriate candidate for a potential loan, you will be contacted by a member of SOIL-Boulder for an interview. The next step would be making an in-person presentation to the members of SOIL-Boulder, which holds Members' Meetings episodically. Loans are made by majority vote of the members of SOIL-Boulder at Members' Meetings.

Knowing how busy you are, and relying on the ensuing conversations and review that are part of our process, we've kept this initial loan application very simple.
